EXTERIOR DIMENSIONS[1]

Amber sidemarker light & wheel rims are US specification (not available in Europe) & differ on European vehicles.

INTERIOR DIMENSIONS

Headroom

1041 mm (front row)
990 mm (second row)
1005 mm (third row)

Shoulder Room

1550 mm (front row)
1515 mm (second row)
1380 mm (third row)

Legroom

1096 mm (front row)
1021 mm (second row)
778 mm (third row)

Hip Room

1459 mm (front row)
1455 mm (second row)
1046 mm (third row)

ELECTRIC DRIVE

System

AWD - 2 drive units with 1 motor each

0 - 100 km/h

3.7 sec with Velocity Max

Motor

Permanent magnet, bar wound

Max speed

210 km/h

Power[9]

615 hp

Torque[9]

880Nm with Velocity Max

BATTERY SYSTEM

Type

Rechargeable energy storage system comprising multiple linked modules

Combined electric energy consumption[9]

21.8 kWh/ 100 km

Range and Efficiency[9]

460 kilometres in combined cycle electric range

Battery chemistry

Lithium-ion NCMA cathode, blended graphite anode

Battery Rated Energy

91 kWh

CHASSIS & SUSPENSION

Front and Rear Suspension

Sport suspension (available for Luxury)
Air ride adaptive suspension (available for Premium Luxury)
Multi-Link front and 5-Link rear with semi-active CDC (chassis Damping Control) dampers

Steering Type

Continuously Variable Electric Power Steering (EPS)

Rear steering

Active Rear Steering (available for Premium Luxury)

Brake Type

Brembo® performance front brakes

Turning Circle (curb-to-curb)

12.1 m

Brake Rotor Size

533 mm (front) FRT Fixed Caliper Disc
457 mm (rear) RR Sliding Caliper Disc

Wheels

Standard 22'', alloy

Tires[10]

295/40R22 (summer tire)

WEIGHTS & CAPACITIES

Base Curb Weight – Minimum

2899 kg

Passenger Volume[11]

4127 L

Cargo Volume[11]

297 L - 889 L (with 3rd row folded)
61 L below the load floor

Max Towing Capacity[12]

2000 kg with 6 passengers
1230 kg with 7 passengers

Gross Vehicle Weight

3475 kg

WARRANTY

Vehicle[13]

4 years / 100'000 km

Battery[13]

8 years / 160'000 km

1 – These images are generated through 3D modeling rendering and may not capture all details of various vehicle configurations. 2 – Functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone, and USB connectivity for some devices. 3 – Google built-in services are subject to limitations and, availability may vary by vehicle, infotainment system and location. Requires compatible content via USB device or via signup to and activation of Connected Vehicle. Restrictions and third party terms may apply. Certain Google actions and functionality may require account linking. Google's user terms and privacy statements apply. Google, Google Play and Google Maps are trademarks of Google LLC. 4 – Not compatible with all devices. 5 – The system wirelessly charges one compatible mobile device. Some phones have built-in wireless charging technology and others require a special adaptor/back cover. To check for phone or other device compatibility consult your carrier. 6 – Always use seat belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See your vehicle Owner's Manual for more information. 7 – Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle's owner's manual for more important safety limitations and information. 8 – For up to three years from vehicle's first registration. Requires signup to and activation of Connected Vehicle. Super Cruise® equipped but not yet activated (local approval pending). We are working to offer you this upgrade in Europe. Look out for a communication from us with more details. 9 – The range of electric vehicles is determined using a uniform measurement procedure (WLTP). Range and energy consumption may vary under real-world conditions depending on driving style and various external factors. It is therefore not always possible to achieve the range according to WLTP. Range figures provided are GM estimates. Vehicle type approval is currently in progress. Final certified values will be available upon completion and may differ from preliminary data. 10 – Lower-profile tires wear faster. Tire and wheel damage may occur on rough or damaged roads or from surfaces, curbs, debris or obstacles. This damage is not covered by the warranty. 11 – Cargo and load capacity limited by weight and distribution. 12 – Before you buy a vehicle or use it for trailering, carefully review the Trailering section of the Owner's Manual. The weight of passengers, cargo, and options or accessories may reduce the amount you can tow. 13 – The new VISTIQ beneficial of warranty coverage "bumper to bumper", that consists in covering all the costs associated to replace or repair, at the approved service partners' discretion, rarely faulty mechanical, electrical or electronical parts. The warranty period commences on the day of the first registration of the vehicle.
