

QASHQAI

New Nissan QASHQAI. Be Seen. Again.

The new Qashqai continues to defy expectations with a revised design that is eye-catching and even sharper. Packed with advanced technologies and enhanced connectivity, it is ideal for urban driving. Electrified with a mild hybrid powertrain, the new Qashqai will deliver performance which is thrilling and pleasurable.

Available in Prestige and Premium grades, be seen, again, in this dynamic crossover.

Actual specifications and features may vary from image(s) shown.

Sharp modernity. Redefined.

With sporty and dynamic proportions, the new Qashqai is an icon redefined. Striking and sophisticated, the new exterior lighting signature and sharply cut front grille sets a powerful statement for modernity.

19-inch Diamond-Cut alloy wheels* with lightweight aero clads, plus new LED lights with sequential turn signals* deliver poise and performance.

**Applicable to Prestige variant only.*

Surrounded by refinement.

A newly designed elegant interior with quality materials, superior finishes, and fully customisable ambient lighting* instantly projects a feeling of calm and comfort.

Actual specifications and features may vary from image(s) shown.

Improved 12.3-inch full colour instrument display*

Frameless auto dimming rear view mirror

12.3-inch NissanConnect Infotainment system with wireless Apple CarPlay & Android Auto

Elegance at its best

Qashqai's cabin is designed around you. From the three sharper, clearer digital displays* to the ergonomic cockpit and seating to convenient cup holders, USB outlets, and storage space. Everything is right where you need it.

**Applicable to Prestige variant only.*

A true sense of harmony.

With quality materials that complement each other, the interior is designed to put you at ease.

Black Nappa leather upholstery with 3D quilting

Futuristic and ergonomic e-shifter

Fast (15W) wireless charger

Freedom of choice. Use Apple CarPlay and Android Auto to access your music, messages, favourite apps and more while driving. Benefit from in-car connectivity, wired or wireless.

Premium Bose® sound system with 10-speakers and subwoofer.

Stay connected to your vehicle,
the road and the world around you.

Blind Spot Warning
Visual alerts appear on the side mirrors if a vehicle is detected in the driver's blind spot.

Intelligent Emergency Braking with Forward Collision Warning & Pedestrian Detection
Keeps an eye up to two vehicles in front of you. If the system detects a sudden deceleration ahead, it gives you an audible and visual warning to slow down. If no corrective action is taken, emergency braking may be applied to avoid or minimise damage during a collision. In addition, it monitors vehicles, cyclists, or pedestrians in your way constantly.

Rear Cross Traffic Alert
When backing out of a parking spot, it detects and alerts the driver to approaching vehicles that might be out of sight.

Intelligent Cruise Control*
While on cruise control, the system helps to keep your distance with the vehicle ahead, controlling acceleration and deceleration to automatically maintain a suitable following distance within your set speed.

Intelligent Driver Alertness
This technology helps to identify driver's fatigue or reduction in attention via monitoring of steering behaviour over a period of time. When detected, visual and audible safety warnings will prompt you to take a break.

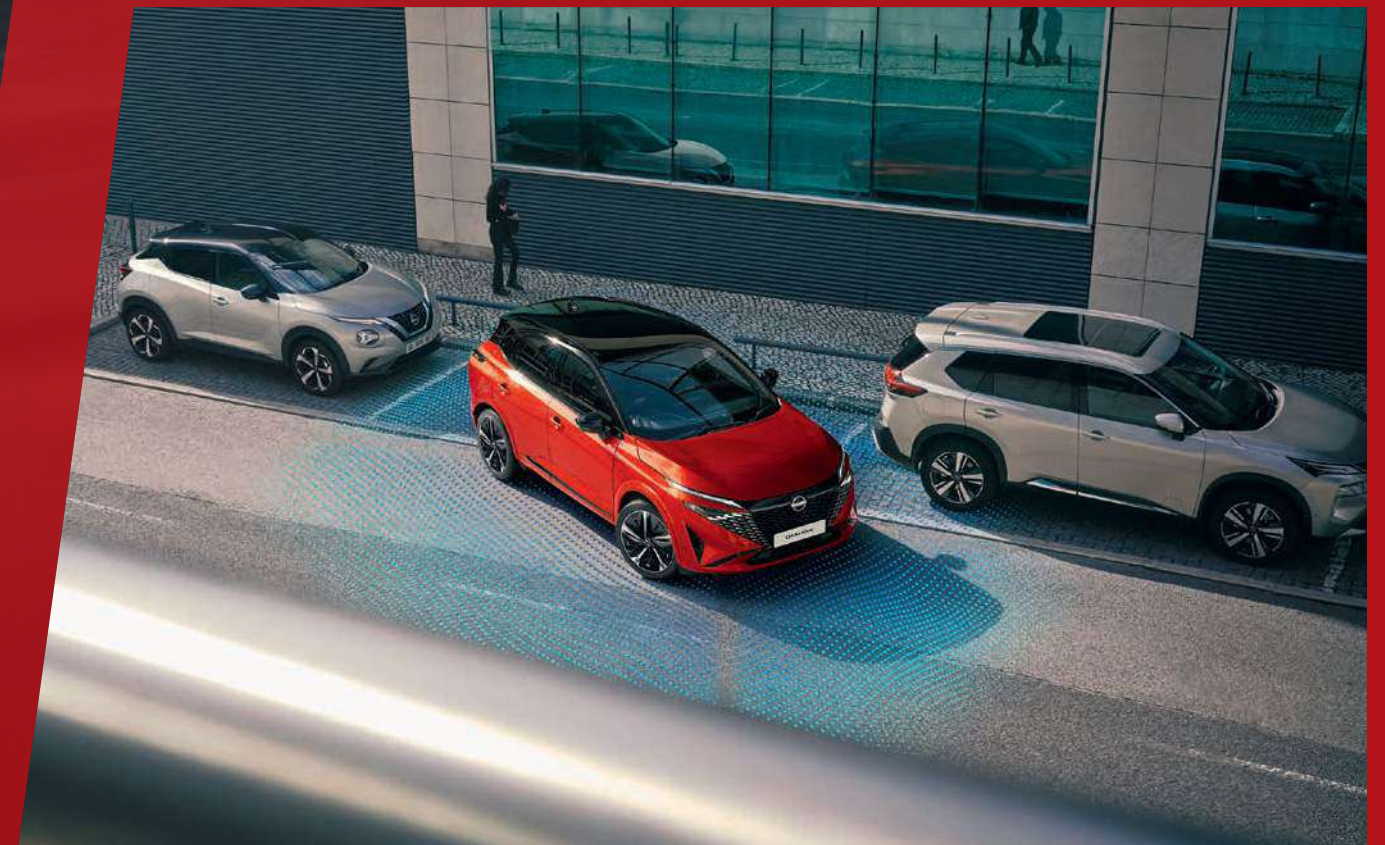

Rear Automatic Emergency Braking*
While reversing, if a stationary object is detected behind the vehicle, the system will warn you of its presence and can automatically engage the brakes if insufficient or no braking is applied.

Lane Departure Warning with Intelligent Lane Intervention
The system keeps you in lane while cruising. If there is an unintentional lane departure, an audible and visual warning is provided for you to take corrective action. If no corrective is taken, the system helps to steer the vehicle back to its intended lane.

Take a fresh view of parking.

Qashqai's new Intelligent Around View Monitor with Moving Object Detection helps you park with confidence. Featuring four cameras around the vehicle, it provides you with multiple views while parking, ensuring that you don't miss any blind spots.

Rear camera shows what is right behind you

Side camera shows you a kerbside view

All-around view adds a virtual 3D, 360° view as you manoeuvre

Front camera combines front and overhead views

The perfect engine for urban driving style.

The drive for efficiency has never been more thrilling with the all-new turbo-charged 1.3-litre mild hybrid powertrain.

Featuring a compact lithium-ion battery, which stores energy recovered during braking, to provide torque assist through an electric motor during acceleration, with the ability to switch off the engine and power electrical equipment when coasting to a stop and an extended idle stop when stationary.

Discover greater fuel efficiency and reduced CO₂ emissions with this innovative system.

Mild Hybrid

Wheels are driven by a petrol engine assisted by a Lithium-ion battery charged on-the-go.
